The setting is, inevitably, important, given the background of the struggle between agricultural survival against industrialisation, and, as I said earlier, the "rooting" of the book in the land - Chris's constant return to the standing stones, particularly at times of distress, is obviously not accidental, and is used to structure the whole book. What's more, these microplastics and their toxic chemistry have seeped into the food chain, threatening marine life and humans alike.
